

The convenience you need with the performance you demand.

The Replaceable Tailgate Spreader from Meyer lets you turn your Payload™ insert dump body into a high performance spreader. Simply replace your Payload tailgate with the spreader tailgate utilizing the four existing locking pins, add the spinner assembly to your receiver hitch and you're ready to spread a wide variety of snow and ice control material.

The spinner assembly fits into a 2" receiver mount and is quickly secured with one locking pin.

Turn your Meyer Payload™ into a high performance spreader.

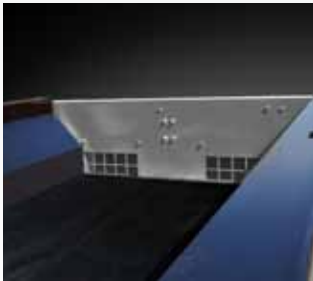

Spreads a wide variety of snow and ice melt exactly where you need it and can be converted back in just a matter of minutes.

Part# 64504

Increased Safety

Built-in safety guards prevent objects from entering the material delivery system.

Independently Driven Motor

Each motor is independently driven and is easily wired so they can be controlled directly from the cab.

Quick Installation

Installs in your Payload insert dump body using the existing four locking pins.

Highlights

- ▶ Designed for ¾ ton+ trucks
- ▶ Replaces the existing tailgate on your Payload™ insert dump body
- ▶ Easy ON/OFF with four locking pins
- ▶ Features two independently controlled electric motors for exact material placement
- ▶ Material flow controlled from inside the cab
- ▶ Built-in guard for increased safety
- ▶ Features low maintenance auger material delivery system with a built in vibrator
