

Meyer®

Introduces a Better Ballast Solution...

A Meyer Distributor Exclusive!

ShurTrax® is THE easy, safe way to add up to 400 lbs. traction weight to trucks and SUVs. Just fill the super-tough, woven mesh reinforced vinyl ShurTrax with your garden hose. It's made to freeze and has been tested to -40 F/C. It complements what Meyer Snowplow owners need, extra traction for full-size and compact pickups.

And the only truck equipment distributors who will have the opportunity to order ShurTrax at a special price are MEYER DISTRIBUTORS!
