Meyer Products Introduces the All-New Super-V3™ Plow *With Innovative Engineering, the Next Generation of V-Plow has Arrived*

CLEVELAND (March 2019) – Elevate your game with the all-new Meyer® Super-V3™ Plow and its industry-leading ground clearance so you never have to worry about bottoming out. The wings can be controlled independently giving you ultimate configuration control, while Meyer's exclusive Nite Saber® LED lights offer safer nighttime plowing with less draw on your electrical system.

Meyer's innovative engineering unleashes the next generation of V-Plows and features the following industry exclusives:

- A bottom centered urethane cutting edge eliminates snow trails
- A pistol grip controller with self-diagnostics reduces downtime
- An industry-leading 5-year warranty

Other features include:

- Standard Nite Saber LED lights for better sight
- Industry-leading ground clearance means less chance of bottoming-out and allows higher stacking capability
- Dual-acting locking cylinders provide ultimate control, locking the blade position whether you're plowing forward or backward
- Trip-edge moldboards absorb and dissipate the shock so you don't lose the entire load, or subject your truck, your plow and yourself to the full impact

- Fleet friendly capability, allowing you to easily switch out your V3 plow with a Meyer straight blade

The Super-V3's Standard Operating System has a streamlined appearance with an encased power unit and patented cable management system for reliable service. The hydraulic system also features an adjustable drop speed to handle various plowing conditions and meet operator preferences.

You can attach and detach the Super-V3 in minutes with a simple 2-plug electrical attachment, and Meyer's free-standing jack stand allows you to adjust the V3's height on uneven or shifting surfaces, making on/off easy in any condition.

Meyer Products LLC (www.meyerproducts.com) is a leading manufacturer of highly reliable snow and ice control systems. Meyer's product innovations and industry knowledge have been improving transportation safety and convenience since the day the company invented auto snowplows over 90 years ago. Meyer Products is a brand of Zurich-based Aebi-Schmidt Group. For more information, contact Meyer Products LLC, 18513 Euclid Ave., Cleveland, Ohio 44112; Marge Lang at (216) 486-1313, marge.lang@aebi-schmidt.com.
